

Samuel Bailey

I'm a recent Graphic Design graduate from Bath Spa looking for full-time work and freelance opportunities.

I am currently working at The Chelsea Café in the Lower Weston area of Bath as Customer Service Assistant. Now that I have completed my degree I'm looking to move into my field of practice and take on more creatively rewarding challenges.

I am skilled with the full Adobe Creative Suite [and alternative software packages] for design work as well as basic awareness of web design fundamentals such as HTML, CSS and JS.

Freelance Work

I have begun to take on freelance graphic design work under the company name Graphics and Type.

My portfolio includes text and image editing and reworking, preparing images and files for print, original design work for a music album press release and infographics for a London chambers of law. I also have curatorial experience from Fringe Arts Festival Bath and helped Fine Art students at Bath Spa with event Branding.
